

Dear Neighbor

Lafarge (Redland Quarries Inc.) has made application to the Department of Environmental Conservation (DEC) for a quarry modification permit to include lands that are near your property. One of the first steps in the State Environmental Quality Review Act process (SQERA) is to identify, recognize and address potential concerns and issues that may arise as a result of our application.

As a courtesy to you, our neighbor, we are providing you our Draft Scope of issues that has been submitted by Lafarge to the DEC. Although this document is not the final version, it does contain a description of the proposed project, identifies potential impacts and attempts to provide some answers.

This document can also be viewed on line at www.lockportquarry.com. A copy is also on hand at the Lockport Town Hall, and the City of Lockport public library.

On December 09, 2015, the DEC will hold a public hearing to hear the communities concerns and gather public opinion for the record. The hearing will be held at the Best Western Hotel, 515 South Lockport Rd, Lockport NY 14094 starting at 6 pm. Once the DEC has gathered all the public concerns a final Scoping document will be developed and submitted for review.

Please take some time to review this document, as we want to keep you educated and informed.

DEC will be publishing a notice of the public scoping hearing shortly. The public notice will provide that your comments may be submitted in person at the hearing or in writing to DEC. Comments may be mailed to Ms. Lisa M. Czechowicz, Deputy Regional Permit Administrator, NYSDEC Division of Environmental Permits, 270 Michigan Avenue, Buffalo, New York 14203-2915. The DEC application number you may reference is DEC No. 2-2999-00002/00009.

Sincerely

A handwritten signature in black ink, appearing to read 'Perry Galdenzi'.

Perry Galdenzi
