## 617.20 Appendix B Short Environmental Assessment Form

## **Instructions for Completing**

**Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1.** Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information					
Name of Action or Project:					
Project Location (describe, and attach a location map):				•	•
					•
Brief Description of Proposed Action:					
Name of Applicant or Sponsor:	Telep				
Name of Applicant of Sponsor.	E-Ma				
Address:	2 1.14	···· ·			
City/PO:		State:	Zip	Code:	
1. Does the proposed action only involve the legislative adoption of a plan, l	local lav	, ordinance,		NO	YES
administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and	l the env	ironmental resources t	hat		
may be affected in the municipality and proceed to Part 2. If no, continue to	questic	on 2.			
2. Does the proposed action require a permit, approval or funding from any If Yes, list agency(s) name and permit or approval:	other go	overnmental Agency?		NO	YES
3.a. Total acreage of the site of the proposed action?		acres	`		
b. Total acreage to be physically disturbed? c. Total acreage (project site and any contiguous properties) owned		acres			
or controlled by the applicant or project sponsor?		_acres			
4. Check all land uses that occur on, adjoining and near the proposed action			<b>.</b>		
□ Urban □ Rural (non-agriculture) □ Industrial □ Comm □ Forest □ Agriculture □ Aquatic □ Other		□ Residential (subur	oan)		
$\square$ Parkland	<u>, t</u>				

a. A permitted use under the zoning regulations?				
b. Consistent with the adopted comprehensive plan?       Image: consistent with the predominant character of the existing built or natural landscape?       NO       YE         7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?       NO       YE         If Yes, identify:		NO	YES	N/A
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?       NO       YE         7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?       NO       YE         11. Will the proposed action result in a substantial increase in traffic above present levels?       NO       YE         b. Are public transportation service(s) available at or near the site of the proposed action?       NO       YE         9. Does the proposed action meet or exceed the state energy code requirements?       NO       YE         10. Will the proposed action connect to an existing public/private water supply?       NO       YE         11. Will the proposed action connect to existing wastewater treatment:       NO       YE         12. a. Does the site contain a structure that is listed on either the State or National Register of Historic Places?       NO       YE         13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or waterbody and extent of alterations in square feet or acres:       NO       YE         14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:       NO       YE         13. a. Does the site of the proposed action contain any species of animal, or associated habitats, listed       NO       YE         14. Identify the typical habitat types that occur on, or are likely to be				<u> </u> 
Iandscape?       NO       YE         If Yes, identify:       NO       YE         If Yes, identify:       NO       YE         8. a. Will the proposed action result in a substantial increase in traffic above present levels?       NO       YE         b. Are public transportation service(s) available at or near the site of the proposed action?       Image: Comparison of the site of the proposed action?       Image: Comparison of the site of the proposed action?       Image: Comparison of the site of the proposed action?       Image: Comparison of the site of the proposed action?       Image: Comparison of the site of the proposed action?       Image: Comparison of the site of the proposed action?       Image: Comparison of the site of the proposed action? **Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2.** Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2.	Will the proposed action result in a change in the use or intensity of use of land?		
3.	Will the proposed action impair the character or quality of the existing community?		
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7.	Will the proposed action impact existing: a. public / private water supplies?		
	b. public / private wastewater treatment utilities?		
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11., Will the proposed action create a hazard to environmental resources or human health?		

**Part 3 - Determination of significance.** The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
